

MORTAR POINTING & SEALANT GUNS

Mortar & Grout Guns

- easy to use barrel guns
- for applying brick & mortar joints
- injecting cements & applying tile grouts

The guns are simple to use for mortar pointing

The skeleton type frame with trigger mechanism applies an even consistent mortar bead. The plastic barrels and nozzles are replaceable and easy to clean

The gun should be used with pre-bagged pointing materials or well mixed and plasticised mortars made with soft or river bed sand

Skeleton Caulking Guns

The skeleton guns are for applying cartridge based sealants, mastics, drywall adhesive & resins

There are many different cartridge types on the market. The most common are the 8½" 310ml and the 10" 400ml cartridges

Gypsum drywall adhesive is supplied in a 13" 1000ml cartridge
