

SPIKED SHOES & KNEE PADS

WOHLTAT Knee Pads

- traditional box style screeders knee pads
- WOHLTAT knee pads are CE marked
- with heavy duty durable rubber outers
- 20mm cellular rubber inserts
- elasticated straps

The traditional design WOHLTAT heavy duty rubber knee pads are hard wearing and comfortable

They have a 25mm thick water resistant cellular rubber insert that does not absorb moisture and that protects the wearer's knee joint

The knee pad insulates the wearer from both cold and hot work surfaces up to 80°, making them excellent for road workers

They are durable and the inners are produced to avoid damp and moisture build up during work

Spiked Shoes

The spiked overshoes are produced for walking over self-levelling floor toppings, epoxy coatings and pumped screeds

They have a plastic base with 25 or 40mm spikes

They are fitted with adjustable webbed straps adjustable strap size and will fit shoe sizes 7-11
