

LIME MORTAR MIXERS

RMR230 ROLLER PAN MIXER

- mill type roller pan mixer
- heavy twin grinding rollers
- for use in historic building refurbishment

This roller pan mixer uses twin 85kg rollers that will crush, mix and rework the materials

The mixer is supplied with mesh lid and guard which can be removed for cleaning

It will mix lime mortars, renders and plaster, rework traditional and reclaimed materials and putties filled with horse hair

The 110 volt model is fitted with a 32 amp plug and needs to run off a 5kva transformer

The RMR120 is a compact rotary paddle mixer designed to mix traditional lime and cement mortars and renders

It is produced with a large capacity drum, three adjustable paddles driven by a powerful electric motor

This mixer is powerful enough to mix the heaviest render and mortar

It can mix materials with aggregate up to 10mm

APPLICATIONS

- for mixing lime mortars & plasters
- traditional repair & renovation materials
- reworking cements & putties
- reclaiming old materials
- traditional plaster with horse hair
- dried & reclaimed mortars
