

HAND PUMP CANNISTER SPRAYERS

HAND PUMP SPRAYER

- high compression sprayers
- stainless steel tank - rust free
- 90psi max pressure with gauge included
- brass pump with chemical resistant viton seals
- 50cm spray lance with spiral hose

The FERROX sprayers have metal canisters, brass pumps, viton O rings and are complete with back straps and spray lance

INOX Plus sprayers are produced with stainless steel cannisters

They will work at 90psi and will spray a wide range of liquid materials including cleaning agents, detergents and disinfectants, building chemicals and release agents onto walls, ceilings, concrete and formwork

APPLICATIONS

- for spraying building chemicals
- cleaning fluids & detergents
- release agents
- pva adhesives
