

DIAMOND STONE POLISHER

DIAMOND POLISHER

- dry diamond polisher
- powerful, variable speed polisher

The EPO1310-PX Diamond Polisher is for dry smoothing and polishing of stone, marble, granite and terrazzo where water polishing is not required

The velcro backed 4" discs are flexible and produced from resin bonded diamonds

The system uses diamond pads from 50 to 3000 grit to achieve a high gloss surface

The EPO1310-PX is supplied with a 100mm velcro backed backing pad

Order the diamond discs separately

APPLICATIONS

- for polishing & finishing
- stone, marble & terrazzo
- granite surfaces
- refurbishing stone
- concrete
- grp & marine structures

DIAMOND STONE WET POLISHER

WET DIAMOND POLISHER

- powerful, three speed polishers
- wet finishing for finer surfaces
- water feed suppresses harmful dust

The wet diamond polishers with water feed are for smoothing, polishing and finishing stone, marble, granite and terrazzo

There is more demand for polishing concrete to a smooth and gloss finish

The motor is protected from water ingress

The system uses discs from 50 to 3000 grit with a final buff pad to achieve a high gloss surface

The EPN1310 is supplied with a 100mm velcro backed backing pad

Order the diamond discs separately

APPLICATIONS

- wet polishing & finishing
- stone & granite
- marble & terrazzo
- concrete & floors
- worktops & synthetic surfaces
- polishing concrete
