

DRYWALL SANDER

ETS225 9" DRYWALL SANDER

- powerful large area sander
- cushioned velcro backing pad
- large holes for effective dust control
- easy handling for wall work
- removeable guard side for edging

The ETS225 is a large area sander that can be used hand held or with an extension pole for ceiling work. It is used for sanding back and smoothing drywall joints; prepping and sanding walls and ceilings prior to painting and decorating.

The sander is lightweight and is complete with a dustguard that allows dust free operation when coupled with a suitable vac.

The edge of the dustguard is cut away allowing sanding right to the edge.

The range of discs are velcro backed.

APPLICATIONS

- for sanding & smoothing walls & ceilings
- smoothing & feathering in drywall joints
- prepping back wall paints & emulsions
- sanding wood floors & boards
- cleaning walls, floors & ceilings

LARGE AREA SANDING DISCS

SUPERPAD SANDING DISCS

- range of sanding discs
- multi hole for plasterboard
- yellow for drywall joints & plaster
- silicone carbide for paints & coatings
- aluminium oxide for wood surfaces
- abrasive pads for tiles & ceramics

Superpad abrasives are perforated across the entire disc surface allowing sanding dust to be effectively removed by vacuum and preventing clogging

The yellow coloured disc is for sanding, smoothing and feathering drywall joints, plaster and painted surfaces

The discs are covered with perforations to minimise clogging and also to help with the air flow to improve the dust extraction

The discs are velcro backed

The Superpad abrasive range and system are available in a range of sizes for use with power tools and flooring machines, for sanding and finishing wood, grp, solid surface synthetic work tops, painted and plaster surfaces, in grit sizes from 40 to 220 grit

APPLICATIONS

- smoothing drywall joints & plaster
- removing emulsion & interior paints
- sanding wood & boards
- sanding walls, floors & ceilings
- cleaning tiles & ceramics
