TERRAZZO & MARBLE POLISHING DISCS

STONE FLOOR POLISHING DISCS

- metal & resin bond discs
- velcro backed
- grits from 60 to 1500
- from first cut to polishing

The blue discs are for wet polishing and refurbishing terrazzo and marble stone floors

The discs are velcro backed and have a bevelled shape for levelling lippage between tiles or joints

The blue drive plate has three bearing mounted plates that turn during use giving faster and finer finishing

The discs for use with the blue rotary drive plate are plastic and velcro backed

The metal bond discs are for rough wet grinding of concrete

After a reasonable smoothness is achieved the turbo style resin bonded discs are used to reach a polished finish

APPLICATIONS

- for renovating & polishing
- buffing & refurbishing
- finishing & polishing
- marble & terrazzo
- retail & shop floors
