SCREW DRIVER BITS

BITS & HOLDERS

- high quality & durable driver bits
- long life bits
- adjustable depth holder for drywall trades
- bit holders for fixing trades

The grey holder is an adjustable depth bit holder used for fixing dry lining boards and ceiling panels

The holder has a lock ring to preset the depth that the screw is set to. The bit is replaceable

All bits are long life and made in Germany

The black holders with orange rings are bit holders that are for use with cordless and SDS Plus drills

The quick change bit retaining mechanism is durable and the location of the bits is positive

The bits with a grey metal finish are for fixing trades use; they have a good balance between durability and price

The Isotin gold finish bits are hardened and are for industrial applications

Bulk packs of bits are available for Phillips, Pozidriv, Torx, hex and slotted head screws and fixings

USH produce a full catalogue which is available on request
