

MBX STEEL & METAL CLEANERS

MBX 3" BRUSH CLEANER

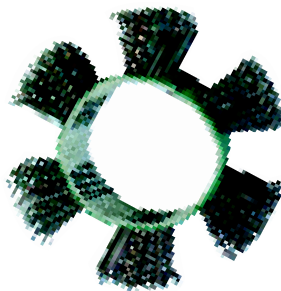

- cleans steel, stainless, alloys & aluminium
- railings, angle iron, joints & gutters
- corrugated sheets & channels
- claw belt brush leaves keyed finish
- standard belts for brushed finish
- stainless belt for working on stainless steel

The EPO1310 with MBX brush is ideal for cleaning angle iron, railings and uneven steel surfaces, corrugated, RSJs and channels

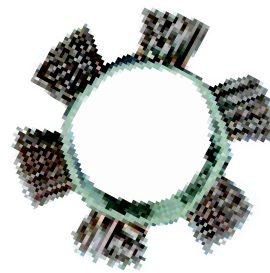

The coarse brushes have a unique claw design that leaves an open surface suitable for recoating; the brush is fitted to a flexible belt that lets the head clean into corners and around bolt heads

The MBX cleaning brushes are ideal for bridge work and pipe joints

Prep rate up to 10m²/hr
