SLOW SPEED ANGLE POLISHERS

- powerful, variable low speed polisher
- for grp, gelcoat & marine finishes
- automotive & acrylic paints
- solid surface materials & composite worktops
- wood & boards
- glass & ceramics

The ELP1300 is a slow variable speed polisher for use on sensitive automotive and marine paint finishes and acrylics

The new generation of water-based paints are more critical and sensitive to finish and extra slow polishing machines are required in conjunction with ultra fine polishing sponges

Marine grp and gelcoat surfaces require slow speed polishing and finishing

Solid surface, composite and stone look alike work surfaces need to be finely smoothed and finished
A wide range of polishing sponges and buffing bonnets can be used

APPLICATIONS

- polishing automotive paints
- finishing marine & grp surfaces
- buffing & refurbishing
- polishing wood
