

DRYWALL TOOLS & SANDERS

STAINLESS STEEL DRYWALL TOOLS

- specialist drywall trowels
- stainless steel jointers & taping knife
- rust free trade quality tools

The drywall trowel has a convex curved blade that feathers the joint compound and leaves a slightly proud joint to cover the mesh, tape or nail

The taping knives have stainless steel flexible blades, soft handle and metal end cap

The rounded jointer is produced from hard wearing flexible rubber and is used for finishing rounded corners and coves. It can be used with a wooden handle for ceiling work

The flat bladed rubber broad knife is produced from similar hard wearing rubber and can also be used with a wooden handle

The drywall and joint sanders are used with mesh abrasive to sand board joints, walls and ceilings, paint and coatings

The mesh abrasive sands down well gypsum and paint while reducing clogging of the abrasive sheet
