

PETROL COMPRESSORS

PETROL SITE COMPRESSORS

- air compressors with petrol engine
- for spray painting & decorating
- air chisels & hammers
- needle guns & scrapers
- fixing tools & staple guns
- Honda petrol engines
- compressors produced in the UK

The ACP compressors are British made with Honda petrol engines, built to an industrial spec with heavy duty and slow running belt driven air pumps

The compressors will run all day on site and power a wide range of air tools, spray equipment, surface prep tools, mixers and drills

The ACP compressor has a 60 ltr air tank, slow running pump The compressors are supplied with solid rubber wheels as standard. Pneumatic tyres are an optional extra

They are available with a full protective frame as an extra

APPLICATIONS

- portable site compressors
- for powering spray guns & pumps
- surface prep tools & rotary scabblers
- needle guns & chipping hammers
- screw drivers & drills
- sanders & polishers

ELECTRIC SITE COMPRESSORS

- air compressors for trade use
- slow running motors & pumps for long life
- 110v or 230v motors
- 10 ltr or 60 ltr air tanks
- for spray painting & decorating trades

The Refina range of portable compressors are built to an industrial spec with heavy duty motors and slow running air pumps

The compact air compressors have slow running direct drive motors and low noise air pumps with twin air receivers and are produced in the EC. The belt drive compressors are produced in the UK

The 110 volt units have soft start motors and are designed so that start up current is minimised. They are fitted with a 32 amp plug and need to run off a 5kva transformer

APPLICATIONS

- for paint spray equipment
- air chisels & hammers
- needle guns & scrapers
- fixing tools & staple guns
- sanders & surface prep tools
