# SILICONE CARBIDE ABRASIVES FOR WOOD, PAINT & LATEX

## SILICONE CARBIDE ABRASIVES

- range of discs & sizes
- abrasive discs for sanding & keying
- abrasive ring for grinding
- mesh discs for skimming the surface

Silicone carbide surfacing and grinding abrasives will handle a wide range of prep and maintenance applications

The double sided coarse discs are produced in an open coat 16 and 24 grit that clogs less; they are used for rough sanding of hard floor surfaces including concrete, screed and latex; sanding back floor paints from factory floors and sealers from wood floors

The silicone carbide ring will surface grind concrete slabs and take out trowel marks

The silicone carbide cups are supplied in grit sizes from 16 to 320; they will work on latex, screed and concrete as well as many stone surfaces and terrazzo

## APPLICATIONS

- sanding wood & parquet
- abrading latex toppings
- removing trowel marks from concrete
- renovating factory floors
- keying floor paints
- rough sanding marble & terrazzo
