

RENDER & MORTAR MIXER

RMX100 ROTAMIXERS

- heavy duty rotary paddle mixer
- three mixer blades
- uniform & consistent mixing
- bottom outlet for discharge into barrow
- for dry & bulk mixes
- easy to clean, low maintenance

The RMX100 is a compact rotary paddle mixer designed to mix mortars and external colour through renders including K-Rend and Monocouche. It is produced with a large capacity drum, three adjustable paddles driven by a powerful electric motor.

The mixer is fitted with an extra pair of wheels at the top of the machine so that it can be easily rolled into the back of a small van or estate car.

This mixer is powerful enough to mix the heaviest render, mortar and screed; it can mix materials with aggregate up to 8mm.

APPLICATIONS

- sand & cement renders
- colour through & polymer renders
- polymer screed & mortars
- backing & top coats
- repair mortars & cements
- K-Rend & Monocouche
- mix quantity 2 bag

RMX100 1.5kw

Speed 42rpm

Machine weight 80kg

Size WxL 69x72cm

Height 120cm

Paddles 3 blade

Capacity 30-90kg

Output 900kg/hr

Noise level 71dBA

Voltage 110v or 230v

Transformer 5kva, 32 amp plug

Generator 5kw

RMX100
