

# SCREW SPRAY PLASTER & RENDER PUMP

## STX515T SCREW SPRAY PUMP

- hopper feed screw pump
- for spraying & applying
- finish plasters & coatings
- textures & high build masonry coatings
- fireproofing paints
- produced by Refina in the UK

The STX515T is a two speed screw pump that will spray multi finish and backing coat plasters, thin coat and one coat monocouche renders, cementitious repair mortars, external textured wall coatings, fireproofing and intumescent paints

They can be used for mortar pointing and grouting

It has a replaceable top mesh and steel hopper

The pumps are available with two speed, variable speed or single speed output and reduction gearboxes with pump outputs up to 10 ltr/min

The standard motor supplied is 110 volt 1.5kw that will run off a single phase supply

The pump is fitted with a 2" diameter stator

The screw pump uses the mono pump principle, with rotor and rubber stator to pump and spray heavy bodied coatings, finish plasters and waterproofing render, fireproofing and textured paints, grout and cement coatings

The EEG17 lance spray gun uses 12cfm at 45psi and is supplied with an 8mm nozzle as standard; 4mm, 6mm, 10mm and flat nozzles are also available

### APPLICATIONS

- spray application of cements & plasters
- thin coat & monocouche one coat renders
- finish & spray plasters
- fire proofers & intumescent paints
- waterproofing renders & tanking
- textured & high build coatings
- pumping & injecting grouts & pointing mortars

Spray pump STX515S 1.5kw

Machine weight 85kg

Size WxL 58x120cm

Height 70cm

Hopper tank 60 ltr

Pump output 4 ltr/min

Noise level 59dBA

Air required for spray gun 280 ltr/min @ 4 bar
