

MZR22 1150 WATT TWIN PADDLE

- powerful contra-rotating positive mix action
- twin paddles for thorough mixing
- easy mix action
- for heavy & difficult to mix materials
- fibre filled products & pastes
- soft start, low splash
- H handle mixer for easy handling

The twin contra-rotating paddles generate a thorough and consistent mix action that reduces air entrainment

The twin paddles reduce counter rotational torque and the mixer drill does not try and twist when mixing heavier materials; it minimises operator fatigue particularly with stiff mixes

The MZR22 gives the most thorough mixer for heavy mortars, fibre filled cements, pastes, putties and epoxies

The twin paddle action is also good for those plasters that are hard work to mix including bonding compound and hardwall

The MZR22 is suited to multi-component, specialist materials and critical mix applications

APPLICATIONS

- mix heavy materials & repair mortars
- epoxies, mortars & pastes
- fibre filled repair mortars
- ceramics, granulates & rubbers
- putties & lime mortars
- fibre filled materials
- specialist paints & coatings
- mix quantity 3 bag

MEGAMIXER MZR22 1150w

Speed 450rpm

Weight 6.8kg

Paddles 2 x EZR120

Capacity 25-75kg

Output 600kg/hr

Vibration level 4.3m/s

Noise level 77dBA

Voltage 110v or 230v

MZR22 & twin paddles

TWIN PADDLE MEGAMIXER

MEGAMIXER with double contra-rotating paddles, variable single speed, soft start
